## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Ganapathy et al., IEEE paper.

Ganapathy anticipates a semiconductor optical device having quantum dots with tensile strain, provided by tensile strained GaNAs capped layer, and quantum dots with compressive strain, InAs QDs, ABSTRACT.

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: in line 6, "o fa" is a typographic error. Appropriate correction is required.

Claims 2, 5-11 are dependent upon objected claim 1.

***Allowable Subject Matter***

Claim 13-27 are allowed.

The following is an examiner's statement of reasons for allowance: in claim 21, the features found in lines 4-6 can not be found in the prior art of record. The prior art of record neither anticipates nor renders obvious the claimed invention as a whole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
